

Sample plots of gc logs in MDC1

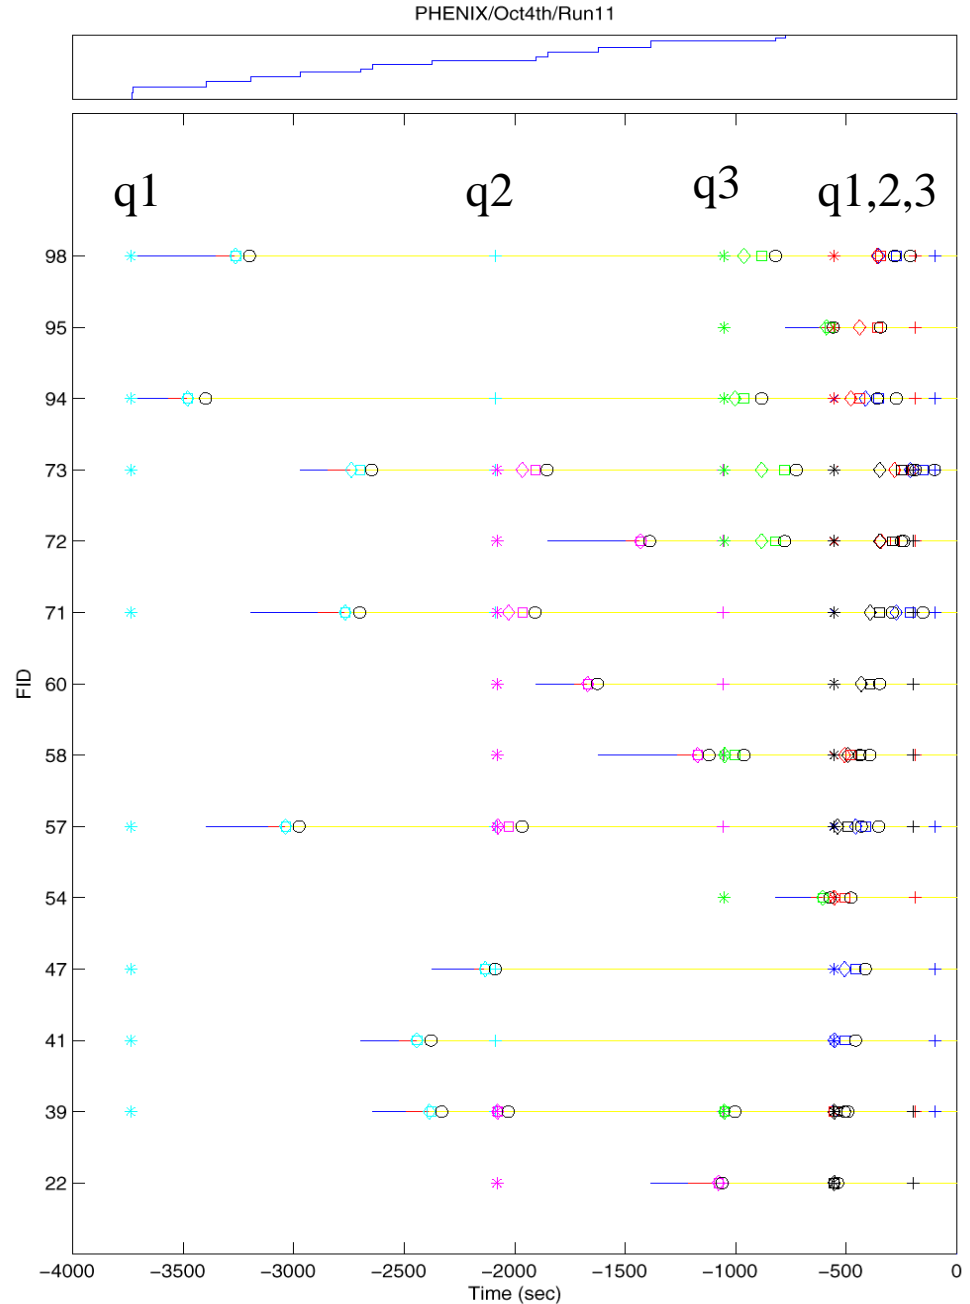

- Luis produced the plots
- references to STAR mean STAR Objy federation in a STAR class of service (COS)
- references to phenix means STAR Objy federation in PHENIX COS
- hi-res plots in `rmnds03:~bernardo/Pixs`

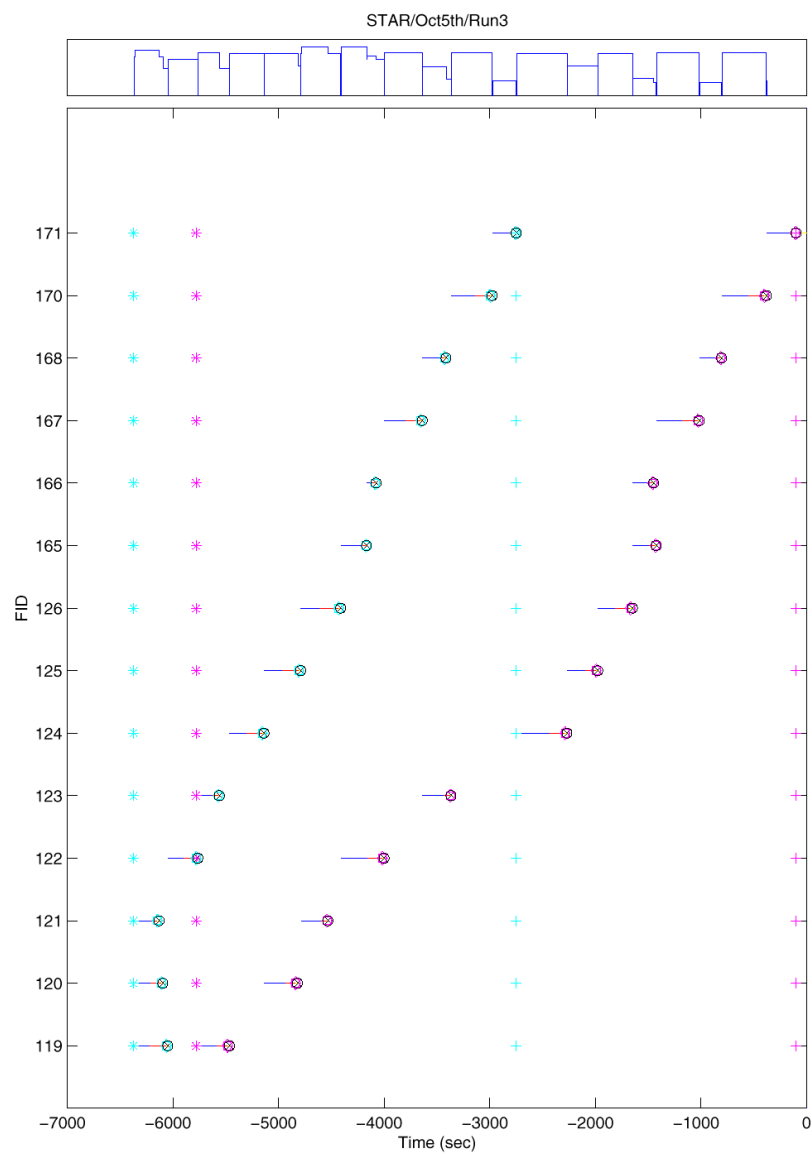

Legend

3 queries with some shared files, time delay between each query, then the same 3 queries are repeated simultaneously.

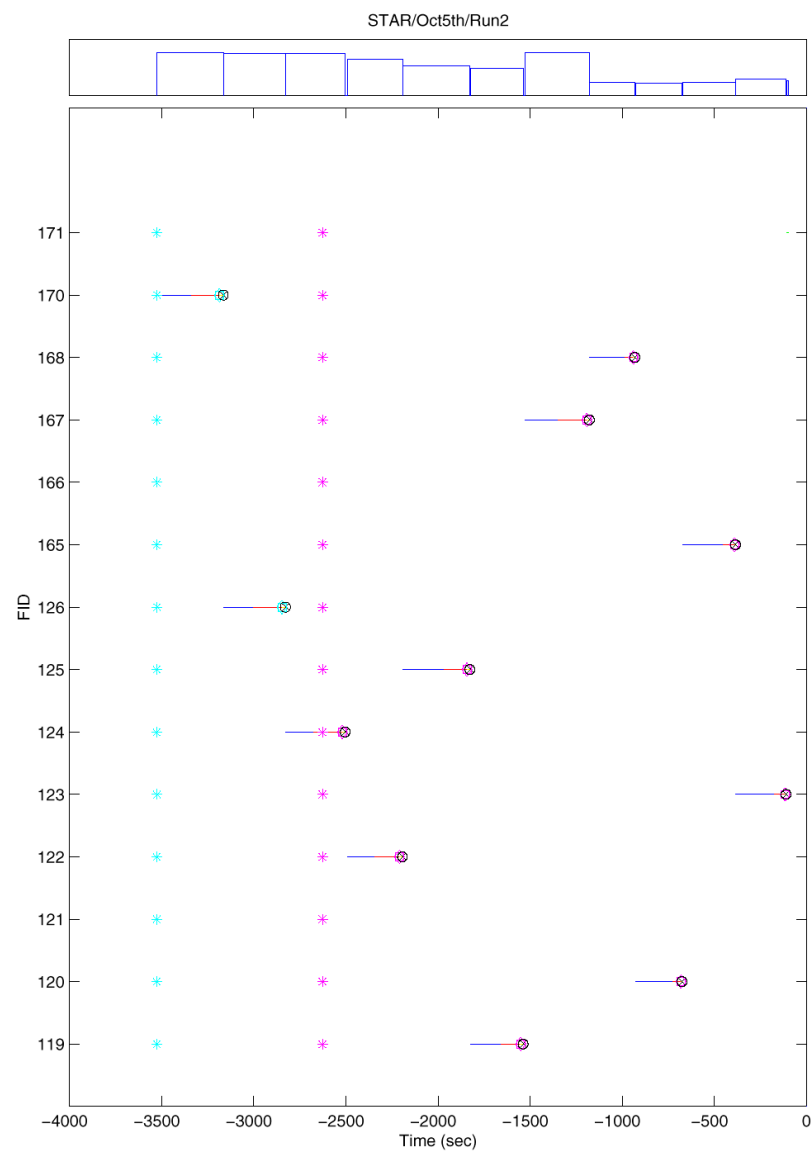

The cache was large enough to hold all files so the second time all queries run at processing speed rather than I/O speed.

Time: 21:43:34 (-8014) Cache: 0 MB FID: 120 File Size: 85

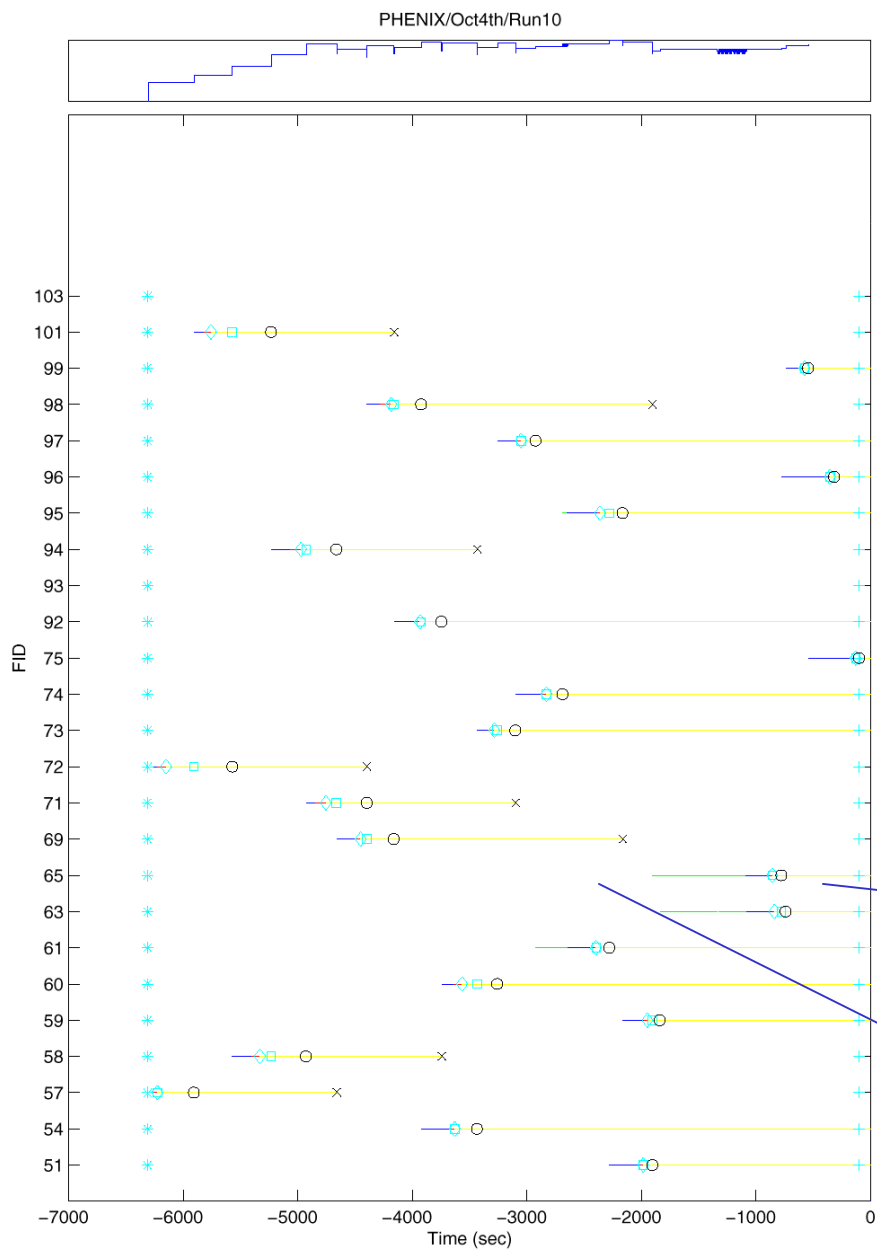

No caching policy

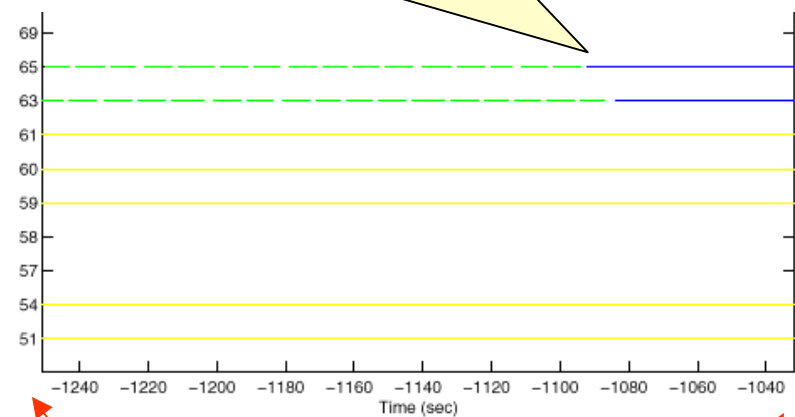

Time: 12:50:36 (-3459) Cache: 302 MB FID: 122 File Size: 255

results/Oct5th/Run2/out..m

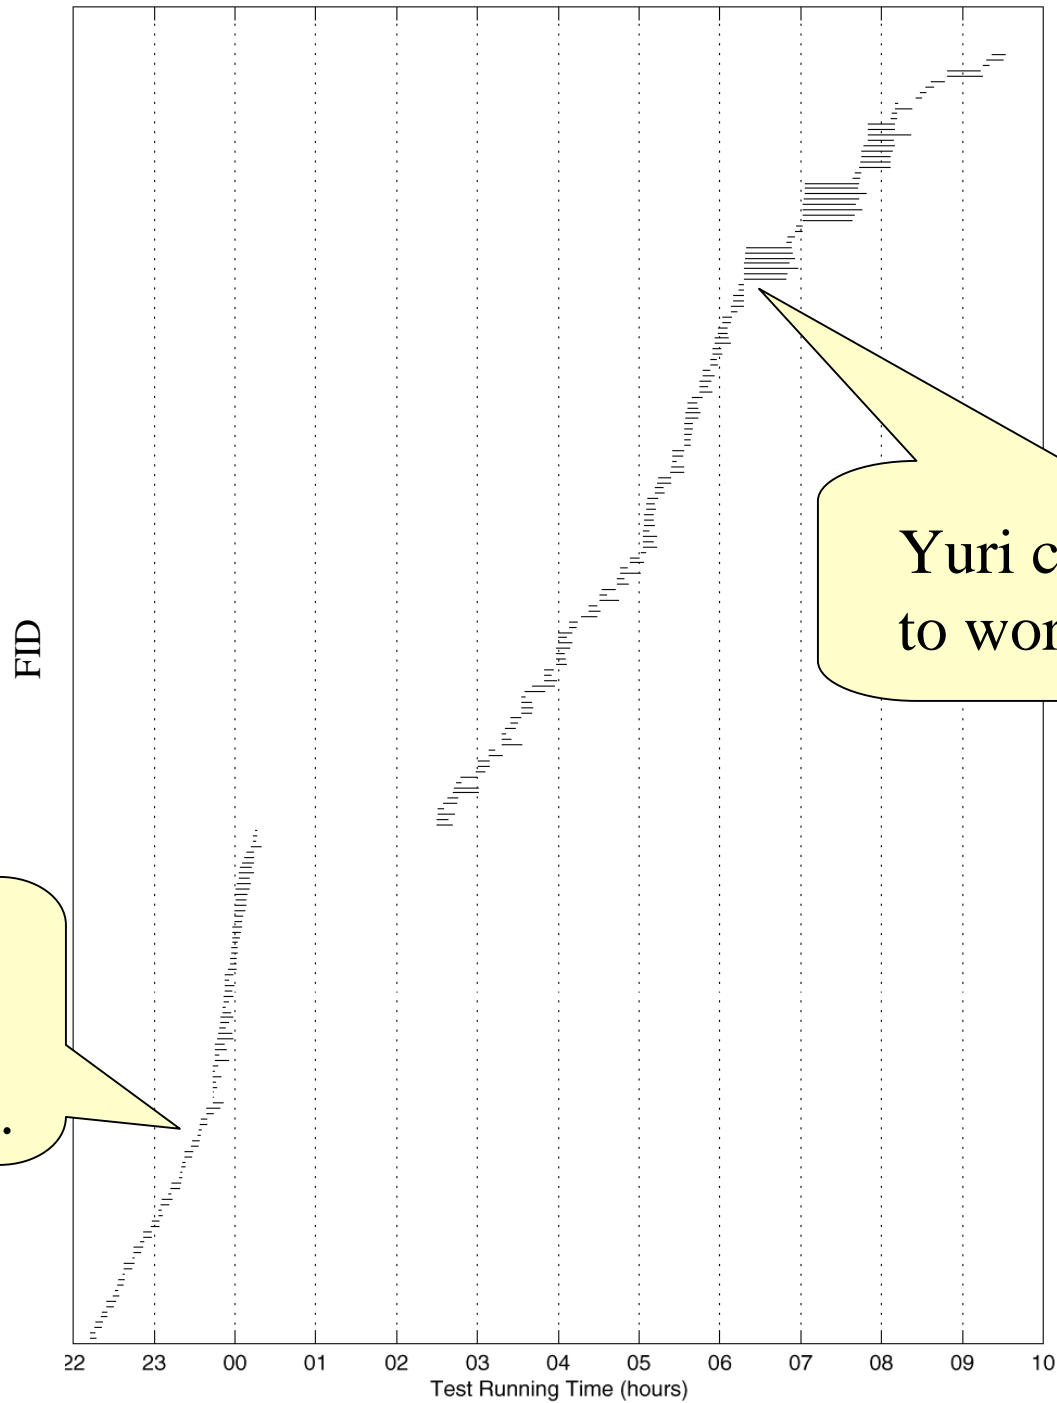

With caching policy -
shared files, ordering by # events

HPSS recovered
& pftp succeeds again

Green means pftp failed

Length of
line is time
to stage file.

Yuri comes back
to work.
